

# Bathers Beach House, WA, Australia

## Case Study

**BOSCH**

Invented for life

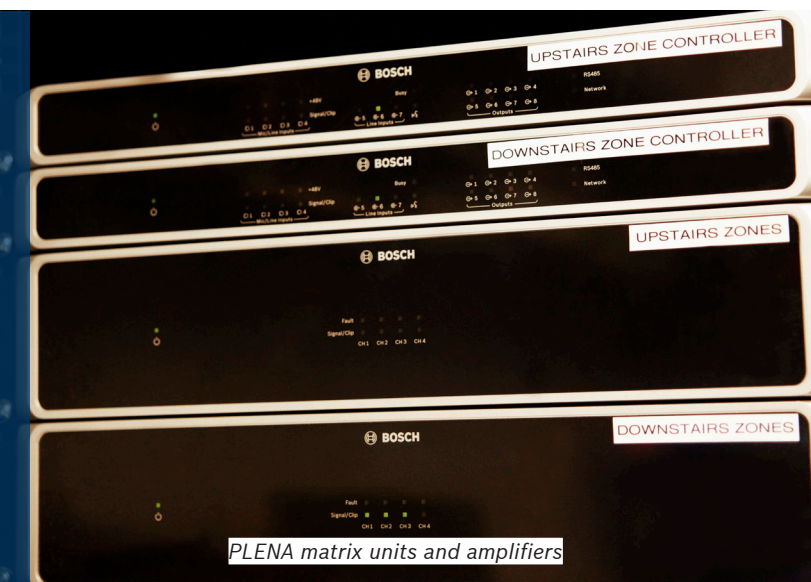

## Bathers Beach House put their trust in Bosch & Electro-Voice

**L**ocated 19 km from Perth's CBD, the city of Fremantle is a fashionable mix of Victorian architecture, trendy boutiques, restaurants, pubs, and Western Australia's largest seaport. A recent addition to Fremantle's nightlife and culinary experience is the Bathers Beach House which is right off the beach and overlooks the Indian Ocean.

Completed last December, the bustling two-storey bar and restaurant also frequently caters for business and private functions. The venue therefore required a sound system that was capable of controlling multiple zones and music sources, provide quality sound and be simple to operate and use on a daily basis.

Brenden Jones, Manager of Bathers Beach House and neighbouring CharCharBull steakhouse, sought advice from Perth's Kosmic Sound and Lighting. "We definitely needed something that gave us a lot of control but was simple to operate once it was set up."

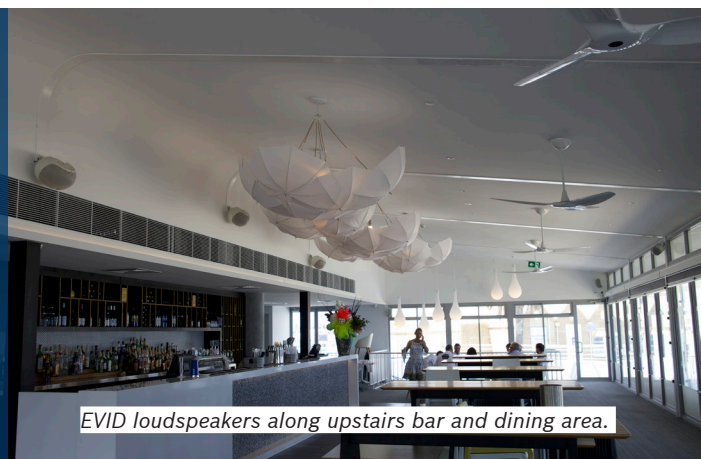

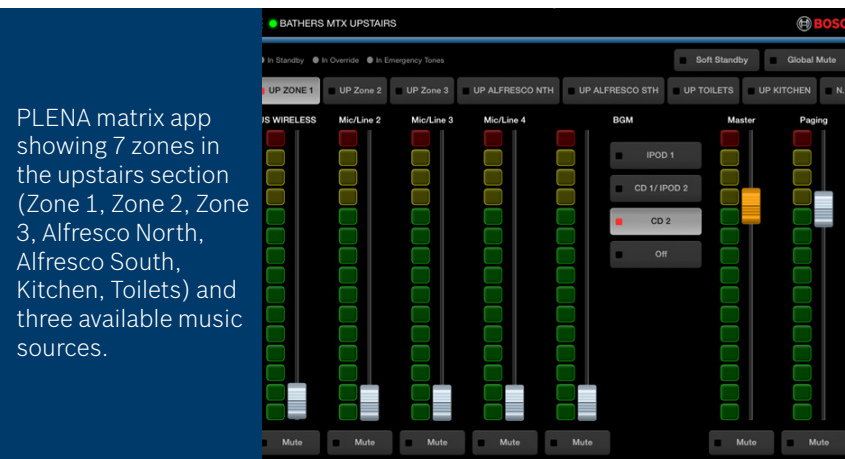

"Kosmic Sound recommended the PLENA matrix system," stated Mr Jones. "I was a little apprehensive as Bosch is not renowned for amplifiers. Once Kosmic demonstrated the system's capabilities though, my opinion changed."

Two PLENA matrix systems comprising of one matrix unit and 2 x 4-channel amplifiers were installed. One system was set up to control 7 zones upstairs, and the other to control 6 zones downstairs. Each PLENA matrix system is controlled using a Wall Control Panel and iPad.

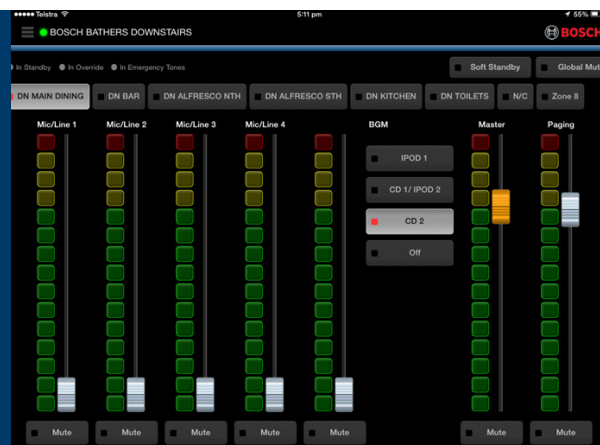

In Bathers, there is one Wall Control Panel and iPad both upstairs and downstairs. It is simple to select the music source through the Wall Control Panel which also controls the music and volume in each individual zone. Certain staff in Bathers Beach House were trained to adjust the sound wirelessly in each of the zones using the IOS app on iPads.

18 Electro-Voice EViD wall-mount loudspeakers and two ZX1 subwoofers are used to distribute the sound from two CD players and two iPods. "We are very happy with the EViDs," said Brenden. "I am familiar with EV from playing in a band. The EViDs look and sound great and come in white or black, which suits our colour scheme well."

"Overall we are very pleased. Kosmic did a great job and the system is going well," concluded Mr. Jones. "We are

PLENA matrix app showing 6 zones in the downstairs section (Main Dining, Bar, Alfresco North, Alfresco South, Kitchen, Toilets) and three available music sources.

Downstairs dining area.

just waiting on the final ingredient which is a ceiling sound treatment. This should make it all sound even greater.”

Patrons of the Bathers Beach House can now enjoy their meals and spectacular views in a great atmosphere aided by a great sounding sound system.

#### Equipment:

- 2 x BOSCH PLM-8M8 PLENA matrix unit
- 2 x BOSCH PLM-4P220 PLENA matrix 220 W Amplifier
- 2 x BOSCH PLM-WCP PLENA matrix Wall Control Panel
- 12 x EV EVID 6.2 Wall-Mounted Loudspeaker
- 6 x EV EVID 4.2 Wall-Mounted Loudspeaker
- 2 x EV ZX1-SUB Subwoofer
